FOSTERING CONFIDENCE

2001 HAWKER 800XP

SERIAL NUMBER 258540

TURNKEY, TWO U.S. OWNER AIRCRAFT w/
ADS-B OUT, WIFI, & API BLENDED WINGLETS

STAND-UP COMFORT WITH COAST-TO-COAST RANGE

The Hawker 800XP is part of a long, proud lineage, originating in Britain in the early 1960s- the very dawn of corporate jets. The Hawker line is arguably one of the most versatile and successful business jets ever produced.

The 800XP is the sixth generation Hawker business jet and a mainstay in the fleet due to its reliability, cabin accommodations, and performance over a wide array of flight profiles. The 800XP's increased power, range and climb performance is blended with a payload hard to match in other medium-size jets.

Sea level takeoff distance at gross weight is 5000 feet; average landing distances are about 2,300 feet - with a maximum cruise speed of 449 knots (0.80 Mach). Fuel burn averages 250 gals per hour. Maximum operating altitude is 41,000 feet.

The cabin, with a total volume of 604 cu. ft., is highlighted by a 5'7" high center aisle and large, supple chairs, generous-sized working tables and a forward galley with ample storage. The 800XP remains the most impressive balance of performance and comfort in its class.
