TWO OWNER AIRCRAFT W/ ADS-B OUT,
ESP GOLD & EEC

ULTIMATE LIGHT JET EXPERIENCE

The Phenom 100 is the first model of the 100 series – a clean-sheet aircraft that swept away the competition in its debut. The interior was designed in conjunction with BMW Group DesignworksUSA to make it one of the most comfortable light jet experiences. Embraer made the Phenom 100 to bridge the divide between luxurious comfort and economic operation.

The Phenom 100 has a maximum range of 920 NM and can cruise up to 41,000 ft altitude at an average speed of 370 knots. Sitting high on its landing gear and with a premium fold-down air star, the Phenom 100 gives the passenger and crew the feeling of flying a mid-size jet, while having the low operating cost of a very light jet. Also, the “Oval Lite” Embraer fuselage optimizes the available cabin room, meaning that passengers’ leg will not be pressed against the wall during the flight.
