2001 HAWKER 800XP

SERIAL NUMBER 258546

ENJOY 100% BONUS DEPRECIATION IN 2019

STAND-UP COMFORT WITH COAST-TO-COAST RANGE

The Hawker 800XP is part of a long, proud lineage, originating in Britain in the early 1960's- the very dawn of corporate jets. The Hawker line is arguably one of the most versatile and successful business jets ever produced.

The sixth generation Hawker business jet is a mainstay in the fleet due its reliability, cabin accommodation and performance over a wide array of flight profiles. The 800XP's increased power, range and climb performance is blended with a payload hard to match in other medium-size jets.

Sea level takeoff distance at gross weight is 5000 feet; average landing distances are about 2,300 feet; the airplane normally cruises at 447 knots (.76 Mach). Fuel burn averages 250 gals per hour. Maximum Operating Altitude is 41,000 feet.

The cabin, with a total volume of 604 cu. ft. is highlighted by a 5'7" high center aisle and large, supple chairs, generous-sized working tables and a forward galley with ample storage. The 800XP remains an impressive balance of performance and comfort in its class.
